

GOLD MEMBERSHIP FACT SHEET

WHAT IS THE GOLD MEMBERSHIP?

The Gold Membership contains the 9 learning modules from the Platinum Level Membership that focus only on our four revolutionary Investment Strategies, including our two modules that outline 8 of the best, most ignored asset classes that we believe will return legendary gains as the global financial system comes under more and more duress. The Gold Membership includes 13 learning modules, 303 pages of content, 94 lessons, 22 exercises, and 89 exam questions to ensure that you learn all our concepts and strategies at a high level.

WHAT IS THE DIFFERENCE BETWEEN THE PLATINUM & GOLD LEVEL MEMBERSHIPS?

The SmartKnowledgeU™ Gold Level membership focuses primarily on teaching you how to become an exceptional stock picker by discussing our four revolutionary & proprietary investment strategies in depth, with limited information about specific strategies that address how to prosper from the coming global financial and economic crisis. The Smart-KnowledgeU Platinum Level membership simply offers a much greater investor toolkit. In addition to the 11 extra educational courses not included with the Gold Level that reveals the most-up-to-date information about this unfolding global financial crisis, the Platinum Level's Special Alerts provide more specific investment guidance to help investors not only prosper but make the right decisions during uncertain markets. This is the single biggest difference between the two membership levels. However, we do provide, as stated above, information about specific, non-traditional asset classes that we believe will significantly outperform as this crisis widens in our Gold Level membership.

*****SPECIAL BONUS*****

To help all of our members earn great returns using our system, we provide Gold Level members Special Member Bulletins throughout the year. Sometimes, bulletins are prompted by significant opportunities in global markets, significant dangers, and sometimes significant developments that will affect certain asset classes, whether currency related or politically related. Expect an average of 3-6 bulletins per year loaded with information you'll never hear anywhere else and primed to help you successfully apply our strategies to outperform like never before!

EXPLORE THE SPECIFIC CONTENT OF OUR GOLD MEMBERSHIP MODULES

Within our Gold Membership modules, we'll teach you how to use volatility to your advantage, how to speculate sparingly and intelligently to boost overall returns, and what rules you should abide by when buying and selling stocks that will help you build wealth. We'll also teach you how to leverage the increasingly wider information technology highway to consistently identify great performing stocks and why the flattening of the world has made fundamental and technical analysis as a primary screening tool obsolete.

When you become a Gold Member, you'll learn how to consistently identify the best stock picks in the world year after year. Therefore, we believe it provides a stronger value over our investment newsletter simply because it provides you with all the lessons, exercises, and tools to enable you to identify the best stocks in whatever markets you desire year after year. However, each of our memberships provide different benefits for different level investors.

For those of you that desire guidance about what stocks to pick in a crisis-type environment, then the Global Stock Picker investment newsletter is probably best suited for you.

For those of you that are confident in your ability to pick individual stocks but require expert strategies that demonstrate much better correlations to share price outperformance than financial statement or technical analysis, then the Gold Level membership is probably best suited for you.

For those of you that want the whole package; expert proprietary strategies; special in-depth bulletins every year to guide your decisions; and an in-depth understanding of why you should be invested in certain asset classes and not others during this developing crisis, then the Platinum Level membership is probably best suited for you.

It all just depends on the level of guidance you feel you need to prosper during what may develop into the worst global financial crisis of our lifetimes.

We want to emphasize that our Gold Membership is NOT a stock picking service, but rather a step-by-step revolutionary, investment strategy toolkit that allows you to become a superior stock picker and to have complete independence in the management of your stock portfolio.

Our Gold Level Membership offers exclusive lessons not offered through our investment newsletter service, such as:

- √ How and where to uncover information regarding strong corporate-government relationships that serve as a strong predictor of future stock price appreciation
- √ How to leverage technology and the flattening of the information world to make better investment decisions
- √ The real truth about the health of the global economy and why you need to ignore the mainstream financial media if you wish to prosper from the unfolding global financial crisis
- √ 8 Special Asset Classes ignored by most investors that are positioned for enormous gains in the future
